Instructions & Art Gallery

I'M A LEARNING HERO		ME	My Teacher
	I can start sentences with imperative verbs. Acquire, Source, Shield, Enshroud, Lock, Secure		
	I can write a detailed set of instructions which includes warnings.		
	I can use a colon for a list of equipment in my introduction. You will need a case containing: a packet of nails, a large black cloth and an iron bar.		
	I can use brackets to give extra information about a noun. The Wrench Buffalo (located in the west wing of the gallery).....		
	I can be responsible for ensuring I write three detailed instructions and an introduction and conclusion.		
Responsibility			
My Reflective Statement			

✓ You used an imperative verb 'collect'

✓ You have used colon's in every instruction

★ You could get a higher level if finished

The purpose of these instructions are because things can go wrong bad. You will need: big hammers, nails, water, mud, cadge

High Heal car

Firstly, you need to put water around the car because if he escapes he will slip and fall on his back. Although he may jump over the water you will need to throw mud at it and the car will stop. Warning: do not, I repeat, do not let him bash the walls.

Wrench Buffalo

Collect some nails and put them in front of his mouth because if he doesn't get nails he will rampage at you and trample all over you. Warning: do not walk behind him otherwise he will kick you and make you go flying across the room.
